New York Stock Market

New York, September 27 .- Regardless of the monetary situation, which was sufficiently tense to cause local banks to call more loans, today's stock market manifested a strong undertone. Money on call opened at a reduction under yesterday's initial rate, but soon rose to six per cent, at which figure the bulk of the days loans were negotiated. The rate cased in the 13, attennoon when the stock market recorded its top prices under lead of United States Steel, which scored its highest price of the year on exceptionally large offerings.

The further rise in steel and allied The further rise in steel and allied issues was generally attributed to trade conditions, which show increased activity at all leading centres. Of the railroads, the most active were, Carladian Pacific and its ally, Minneapolis and Sault Ste Marie; Reading and lithness Central. In the final hour of Rock island and the Gouldgroup became active at smart advances.
